CARBON VEE SOCKS/CUBES

VEE BANK CUBE

Features

Contains 105 grams of activated carbon per ft²

Available in gloves or cubes

Low air resistance, non bypass, disposable media offered for light, medium or heavy-duty applications

Description

Activated Carbon Media is effective at removing and preventing odors and fumes from building up in recirculated air.

The Media also prevents outside fumes generated from helicopters and trucks, roofing tar, wildfire smoke fumes, cigarette smoke and other undesirable odors.

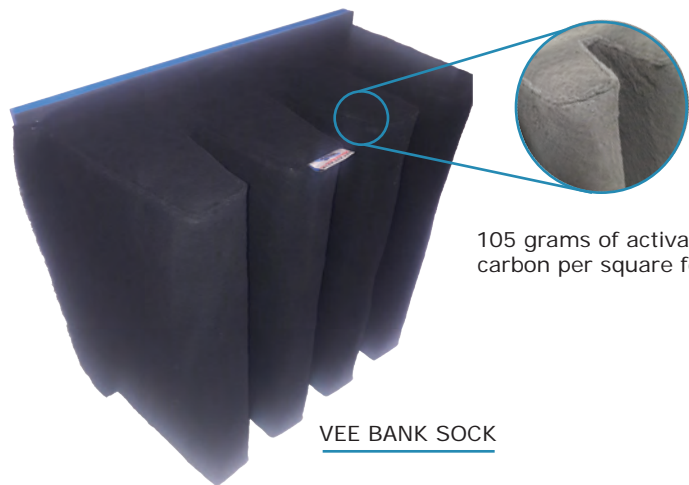

Benefits

Activated Carbon Media "adsorbs" odors and pollutants without settling of carbon.

Removes odors, gaseous pollutants and particles.

Quick solution for emergency IAQ problems (wildfire smoke fumes, construction projects, etc.)

Good for non-standard air handling systems.

105 grams of activated carbon per square foot
